NEXT D

A4

Lists some recommended teams (based on user preferences). Clicking on one allows the user to view basic information about the team (name, sports played, previous game synopsis, etc) and/or select said team. If none of the recommended teams suit, more options are available; the user can use the "Search" or "filter" option.

A5
Ability to search by team name or filter listed teams via different stats options

A - (continued)

Scheduling...
You've scheduled a <difficulty><sport> game against the <enemy team name> at <venue> on <date & time>. Is this information correct?
[YES] [NO]
NEXT

Example text: "You've scheduled a <casual (team)> <volleyball> game against the <Burly Blueberries> at <Fruity Park> on <Monday, October 19th, 4:00 PM EST>

Obviously, the user selects [yes] or [no]. If [yes], user continues. If [no], the user may select which information is incorrect, and thus change it.

Check if you want to be notified

Scheduling...
Awesome! Please let us know if you wish to be notified of your upcoming game, or if you wish to add any optional services. Good luck!

Button number 1 (these sketches):

This following sketches will walk a user through checking the scores and stats of their teams and others. It will also detail upcoming matches in case the user is interested in being a spectator and going to the game. Anyone can use this section of the app.

Button number two (the next set of sketches):

The next set of sketches will show how a user schedules games against other teams. Unlike the first section, this section is reserved more for the coaches/heads of teams.

Button number 3 (the final group of sketches)

The last section of the app will show a user how to volunteer or help out with any of the games/tournaments. This section is also open to any user, and includes s number of different ways to help out.
